

# Think about it.

#ChooseReality

Do you think anyone should be able to choose the sex written on their birth certificate, no questions asked?

Do you think adult males should be able to enter female-only sleeping and changing areas or domestic violence refuges?

Do you think fully intact, male-bodied prisoners should be allowed to live with women in prison?

Do you think males should be allowed to compete against women in sport, if they feel like women?

Do you think intimate services should be performed by male-bodied people when a woman or girl has requested a female?

Do you think someone with a penis is a woman?

The Government is considering a revolutionary change to British law, known as Sex Self-ID, that would allow **ANYONE** to switch the sex on their birth certificate, on demand.

But if **ANY MAN** can get his birth certificate reissued to say he was born female, just like that, with no changes to his body and no medical supervision, it will have serious consequences for women and girls.

There are better ways to support gender non-conforming people, which do not put women and girls at risk.

If you think Sex Self-ID is wrong, tell the Government not to make it law.

Go to [fairplayforwomen.com](http://fairplayforwomen.com) to respond to the Government consultation. It just takes a few minutes.

**There's no time to lose. The consultation ends on Oct 19th. Do it now, for your mum, your sister, your daughter or yourself.**

**Say NO to Sex Self-ID  
Say YES to common sense  
#ChooseReality**
