27 April 2021

Dear Dr Williams,

Thank you for your letter dated 1st April 2021.

As you have noted, the decision of the High Court of Justice in England and Wales relates to the Census in England and Wales. Over the coming months, National Records of Scotland will consider the implications of this decision on Scotland's Census.

We remain committed to delivering a census in Scotland which enables all of Scotland to participate and meets the needs of a wide range of data users. As we approach census day in Scotland we will continue to engage in an open and transparent manner with stakeholders.

Yours sincerely,

PAUL LOWE
Chief Executive
